2017 Fipronil 0.1G Sales and Application Agreement and Efficacy Guarantee

This Fipronil 0.1G Sales and Application Agreement and Efficacy Guarantee Agreement (the "Agreement") is entered into between Quali-Pro, a business unit of Control Solutions Inc. represented by a Quali-Pro Authorized Distributor, the certified applicator, and the Turf Manager/Superintendent.

Purpose

The purpose of this Agreement is for the Turf Manager, or Authorized Representative, to contract for mole cricket, fire ant, and other pest control by the application of Quali-Pro Fipronil 0.1% G insecticide from Quali-Pro, to those turf areas that are specifically identified in the Treatment Area description. The Quali-Pro ("QP") Authorized distributor presenting this Agreement to the Turf Manager, or Authorized Representative, is authorized to execute the Agreement on behalf of Quali-Pro, but only within the following terms and conditions.

Terms and Conditions

The Turf Manager/Superintendent will be responsible to arrange the application of Fipronil 0.1G insecticide by a Quali-Pro Certified Applicator to all areas designated on this Agreement form. It is agreed by the Turf Manager that this area is accurately identified in size by acres within this Agreement. The Fipronil 0.1G applications will be made on the proposed treatment date listed on this Agreement form and at the rate of 25 lbs per acre as a slit-application. Any injuries or complaints relating to the application of Fipronil 0.1G will be made to the Quali-Pro Authorized distributor. The Quali-Pro Authorized distributor can provide a Fipronil 0.1G MSDS and a label to the Turf Manager at the time of application if desired. Label and MSDS are always available at www.quali-pro.com. The Turf Manager will be responsible for compliance with the post-application label requirements (i.e., re-entry into treated area, etc). The label is the Law. For example: Empty bags should be disposed of according to the label. Under the terms and conditions of this Agreement only, Quali-Pro warrants that one slit application of Fipronil 0.1G (**at 25 pounds per acre**) by a Quali-Pro certified applicator with approved equipment that is in good working order at the time of application, will provide satisfactory control of mole crickets and fire ants through the end of December of the year of application and on the acreage applied. (Mating flights of adult mole crickets may temporarily infest turfgrass and are excluded from warranty).

MANUFACTURER WARRANTY

Refer to the Warranty statement on the label of Quali-Pro Fipronil 0.1G.

THE QUALI-PRO PLEDGE

FIPRONIL 0.1G SLIT APPLICATION EFFICACY GUARANTEE

Quali-Pro will provide a currently registered mole cricket control product from the Quali-Pro portfolio through the Authorized Distributor for application to any hot spots that might appear in the treated area to the satisfaction of the Turf Manager/Superintendent.

The product should be applied during the proper application timing range as recommended by your state university turfgrass extension department based upon your location.

The Turf Manager, or Authorized Representative, represents that he/she has read and understands this Agreement and agrees to be bound by its terms and conditions. This Agreement constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all previous communication, negotiations, proposals, and agreements, oral or written between the parties.

I have read and understand all terms and conditions contained in the Agreement and agree to be bound by them as evidenced by my signature below.
