

CHIPCO[®] Choice

Active Ingredient: fipronil
IRAC Code: group 2B insecticide
Systemicity: limited
Formulation: granular
Signal Word: caution

Best Uses

- Use in a slit application by a certified Chipco[®] Choice Applicator for season-long control of mole crickets

Attributes Of Chipco Choice

- Chipco Choice is the longest-lasting mole cricket insecticide on the market
- It has long soil residual that withstands the frequent rainfall in the Southeast, providing season-long control of mole crickets when slit applied
- Chipco Choice works by both contact and ingestion; broadcast applications provide year-long control of fire ants along with limited residual control of mole crickets, nuisance ants, fleas and ticks

How To Use Chipco Choice

- A single slit application of Chipco Choice at 25 pounds/acre made by a certified Chipco Choice Applicator provides season-long control of mole crickets*
- For mole cricket control only, do not apply more than 25 pounds of product per acre (0.025 lb. ai/acre) per application, do not exceed 50 pounds of product per acre (0.05 lb. ai/acre) per year

*Contact your Distributor Sales Representative to assist in scheduling your application.
